PRODUCT FEATURES

INTUITIVE PRO-STYLE LAYOUT

Use the 2 large effect levers to control up to 57 effects in Serato DJ Pro (including paid Expansion Packs) and get creative using the 4 Performance Pads on each deck to control 13 pad modes including Hot Cue and Sampler.

CROSSFADER HOT CUE

Turn on this feature and you can quickly move the crossfader to create scratch-like sounds with a sample or track. Every time you move the fader away from the edge, the track or sample on the relevant deck plays from the most recent Hot Cue point.

MAGVEL FADER PRO

Find your perfect scratch feeling with the popular and robust MAGVEL FADER PRO crossfader, which features Feeling Adjust so you can tweak the "weight" and get the level of resistance you like best.

SERATO DJ PRO AND DVS PLUG-AND-PLAY

Simply plug the DJM-S5 into a PC / Mac running the Serato DJ Pro application and you can use the software for free, including a host of professional performance features. The mixer also offers free support for Serato DVS.

SCRATCH CUTTER

Simply move the control vinyl or jog wheel (when using DVS control) on one of your decks and Scratch Cutter will apply your choice of 6 cutting patterns to the sample or track in perfect time with the track playing on the other deck – there's no need to move the crossfader.

STRIKING NEW DESIGN

The top plate is split into bright red gloss and black sections with contrasting detailing and black controls and buttons to create the look of a musical instrument. There's also a transparent window on the front plate that shows off the inner workings of the MAGVEL FADER PRO.
