### PRODUCT FEATURES

#### FAMILIAR AND CLEAR HARDWARE INTERFACE

With a familiar and clear layout, the DJM-S7 gives you the freedom to play energetically and bring your own style to every performance.

#### MAGVEL FADER PRO

We've enhanced the feeling of the MAGVEL FADER PRO and boosted the rigidity of the knob mounting shaft in the vertical direction by 30 percent so you can scratch with even more confidence.

#### BLUETOOTH INPUT

Pair your tablet or mobile device with the DJM-S7 via Bluetooth and drop sounds straight into your set. You can play the audio directly through the master output or either of the channels and use the dedicated knob and fader on the front of the mixer to adjust the level.

#### LOOP MIDI

Control various functions in your DJ application by repeatedly sending a MIDI signal to the software in a set beat cycle. Use the Beat buttons on the mixer to set the length of the loop, then switch on the effect lever to trigger the relevant feature, e.g., Hot Cue, sampler, or key shift-up.

#### SCRATCH BANK

Instantly load scratch samples from 4 banks you've assigned in Serato DJ Pro by simply tapping a pad. You can load from a specified start point too – handy if you want to drop in full tracks during a routine.

#### COMBO PAD MODE

Activate Combo Pad mode in Serato DJ Pro to use 2 different pad modes simultaneously, e.g., Hot Cue and Sampler.
